Dear Colleagues and Friends,

On behalf of the organizing and scientific committees, it gives us great pleasure to invite you to the 4th Asia Pacific Conference on Public Health 2015 in Kuantan, Malaysia. This conference starts on Monday 7 September and concludes on Wednesday 9 September 2015. This conference is being organized by the College of Public Health Medicine, Academy of Medicine Malaysia and is supported by the Ministry of Health Malaysia.

This conference will focus on the many facets of Public Health in different parts of Asia Pacific. This year’s conference on “Fostering Innovation in Tackling Double Burden of Disease” highlights the importance of innovation in advancing the health of the public, specifically, innovations that may reduce the burden of disease due to both communicable and non-communicable disease. In addition, the conference also explores how environmental and global changes affect health.

This conference brings together, from all over the world, an estimated 800 professionals involved in Public Health to assess the current evidence of innovative public health interventions.

The conference will take place in a truly global spirit, accommodating contributions from all parts of the world and in particular, the Asia Pacific Region. It will take stock of the situation, assess the state of research, propose action and map strategies for new innovations and initiatives toward further success in the field of Public Health.

The organizing and scientific committees are working diligently to ensure a successful conference of high quality. The program features many renowned speakers with diverse public health expertise from all parts of the world and in particular, the Asia Pacific Region. Public health needs to continue innovating to ensure better health of future populations.
